Kailin Chen

Team-focused, collaborative individual that enjoys helping others and will not hesitate to ask others for assistance.

Believe in open communication and discussion. Looking for challenging opportunities in Web Development and Finance.

Education

- 2015 – 2020 (Expected) Boston University GPA 3.50
- Pursuing a dual degree in Finance and Computer Science
 - A- or higher in Managerial Accounting, Information Systems, Financial Accounting, Introduction to Computer Science, Introduction to Databases
 - Dean's List for 3 semesters (2016 Spring – 2017 Spring)

Experience

- 2017 - Present General Assembly Boston
- web developer in training
 - train web development skills in intensive 12 weeks
 - develop collaborative skills necessary in team setting
 - learn how to understand docs and create great docs

Projects

- 2017 - Present Air Kick
- created a full stack app using Rails, JS, Bootstrap, and Handlebars
 - enhanced UI using Bootstrap, Handlebars, and JavaScript
 - created powerful, organized API for developers
 - Takeaways:
 - o Frontend tools are powerful and easy to implement
 - o Frontend perspective in structuring API is helpful
 - o Endless potential with Handlebars and Bootstrap exist
- 2017 Tic Tac Toe
- Created responsive website with JavaScript
 - Interacted with 3rd Party API for the first time
 - Takeaways:
 - o 3rd Party API's are limited and require creativity in implementation
 - o web design without frameworks is tedious
